

Pigmented bacteria called: *Serratia*. You may see this in your shower grout.

Above = bottles of body wash.
Left = clean product
Right = contaminated by mold
Below = mold growth on agar

Normal bacteria handprint.
Every person's hand has bacteria.
Some are there all the time.
Some we pick up from surfaces.

Organisms from bathwater.
Note pink *Serratia* and fungi.

Gram Stain of Bacteria
Purple = gram positive
Pink = gram negative
