Year 2

Global Community Giveback

In April 2022, the students had the opportunity to interact with elementary school children from a local school in their community (Santa Ana Xalmimilulco) and shared healthy habits with them.

Four teams were formed, and the BTE students worked with children:

- The importance of physical activity
- How to prepare a healthy sandwich
- Healthy portions
- The eat well plate

Results

- The BTE students strengthen their leadership, social and teamwork skills
- 2 schools and 150 children reached
- The students become aware of the impact they can have in their community
- One of the activities with more impact in the second year

Student testimonial

"Was a great experience in which we were able to interact with children and share good habits in a fun way, it helped me to get along better with my BTE fellows and I reflected that small actions can make an impact in my community"

Best practices

- Youth participation
- Students had the leading role
- Team work
- Follow the proposal of the 2021 BTE ambassadors
- Community involvement
