Year 2

Janssen Cilag visit

BTE students visited Janssen Cilag plant in Huejotzingo Puebla.

J&J volunteers gave them a tour where they:

- Saw the manufacturing process
- Learned about the different areas of the plant, the work and profession of their employees
- Knew the facilities and equipment of the plant
- Understood the impact of CREDO on J&J company

Results

- First in person activity with J&J volunteers
- Student- volunteer bonding experience
- Career readiness & exploration
- Better understanding of Janssen's function and J&J Credo
- Strengthening of the BTE identity
- Favorite 2° year activity for the students

Best practices

- Small groups for the tour
- Volunteers who had participated in virtual activities guided the tour
- J&J virtual learning was reinforced with this in person activity
