BRIDGE TO EMPLOYMENT

Team 3

The background is a vibrant blue sky with several stylized clouds in white and dark blue. In the foreground, there are green hills with a blue river flowing through them. To the left, there are grey, jagged mountains. A white polar bear stands on a grey rock in the middle ground. To the right, there is a city with colorful buildings (green, blue, and white) and several green trees. The overall style is a simple, cartoonish illustration.

Presents

Water World

Team Members

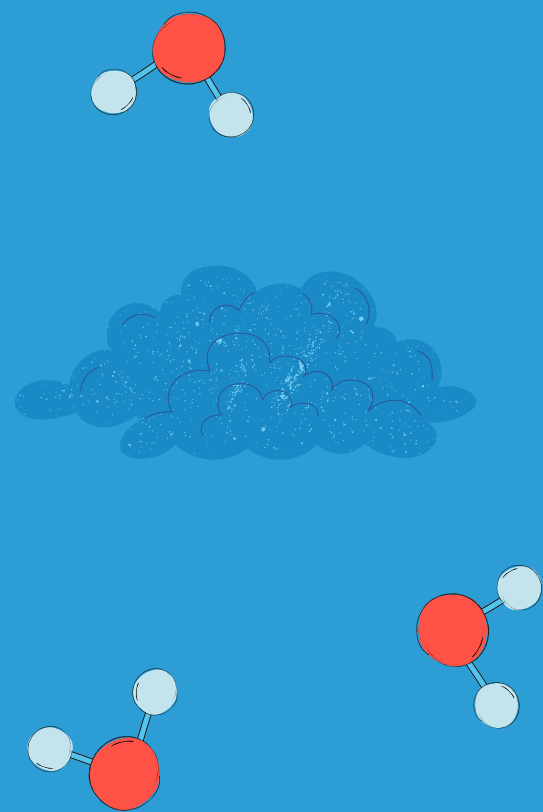

- **Bishan Gurung, Sydney Australia**
- **Adam Branchett, Sydney Australia**
- **Netchanok Chidjaroen, Bangkok Thailand**
- **Nanthicha Wimonrat, Bangkok Thailand**
- **Chanittha Chaiyotha, Bangkok Thailand**

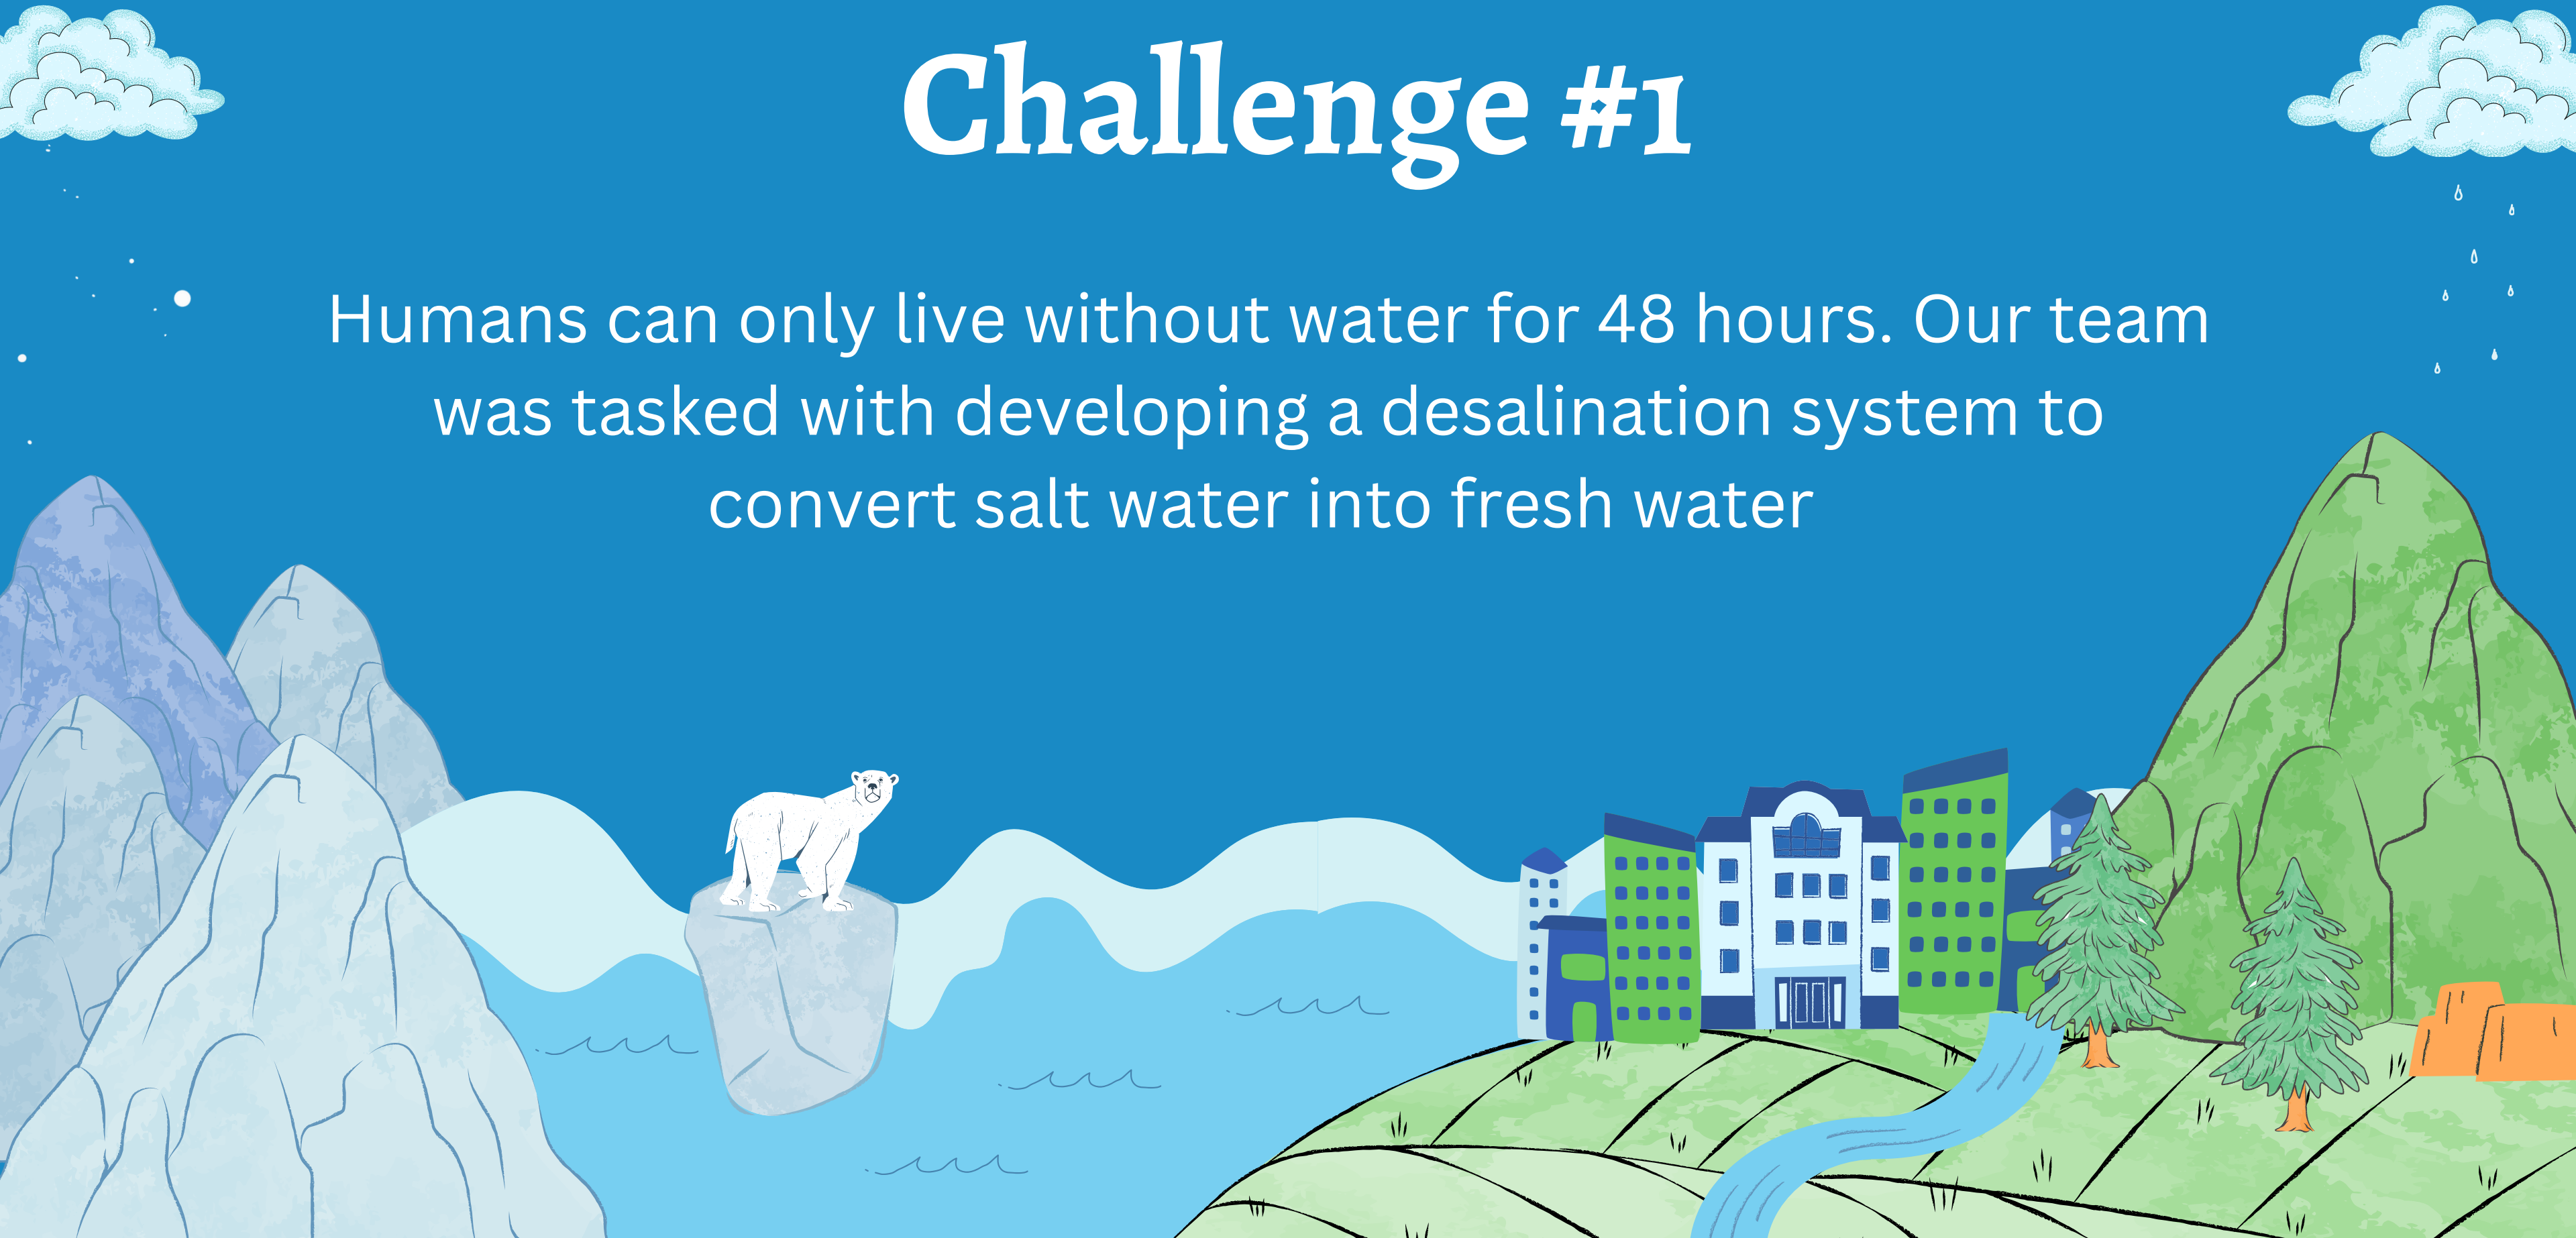

Theme Explanation

In the very distant future the polar ice caps have completely melted, and the sea level has risen covering nearly all of the land. The remains of human civilization live on rugged, floating communities around the globe

Challenge #1

- Humans can only live without water for 48 hours. Our team was tasked with developing a desalination system to convert salt water into fresh water

Challenge #2

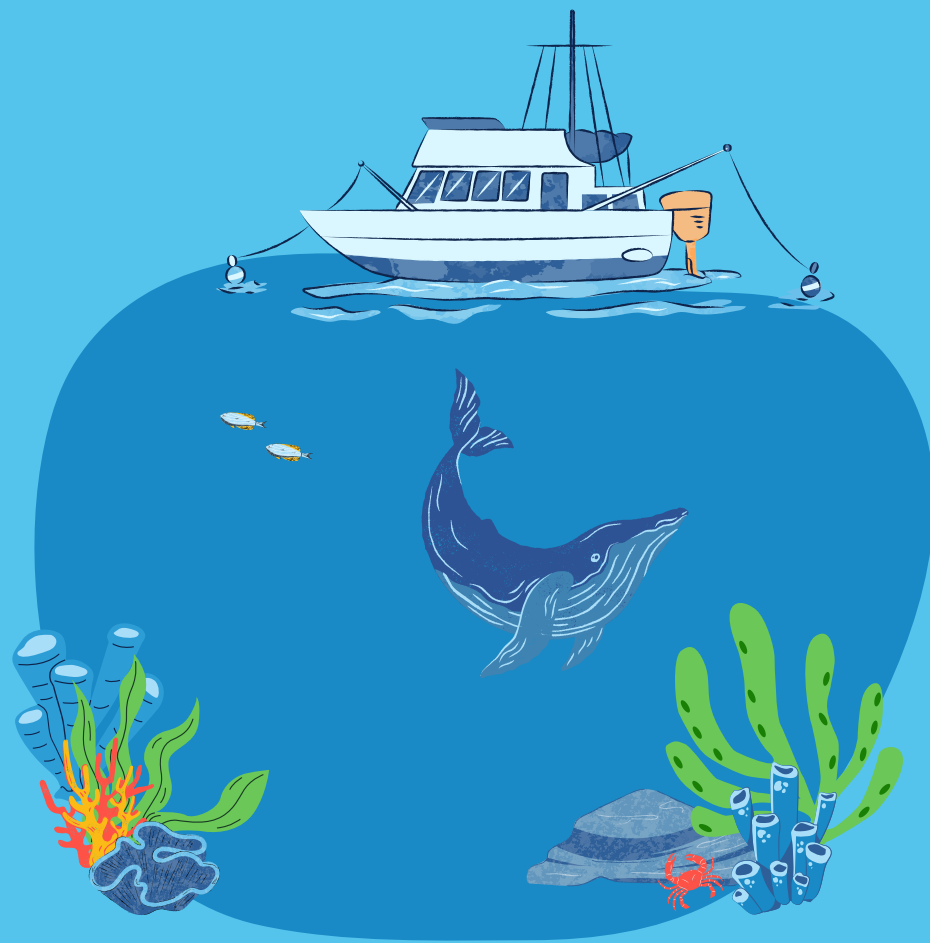

In order to protect our floating community, we were tasked with constructing a trebuchet that accurately launches an item of our choice at an established target at a minimum of 8 feet away.

Challenge #3

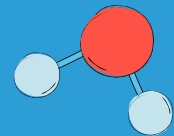

We were asked to design a transportation system to transport people from point A to B using these items:

- Toilet paper roll
- 2 paper clips
- 2 toothpicks
- 2 straws
- 2 rubber bands
- 2 balloons
- 1 card stock paper
- Masking tape
- 1 Pipe cleaner

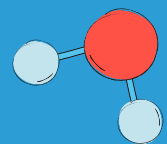

Challenge #3 Photos

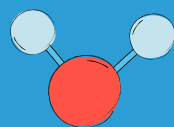

Struggles

- Weak tape
- Language barrier
- Time management
- Could not get the device to go in right direction

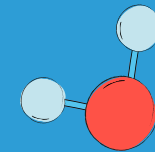

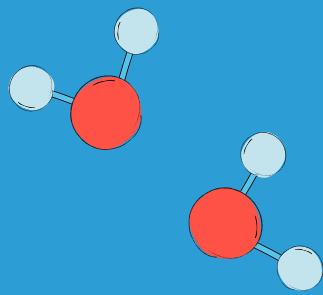

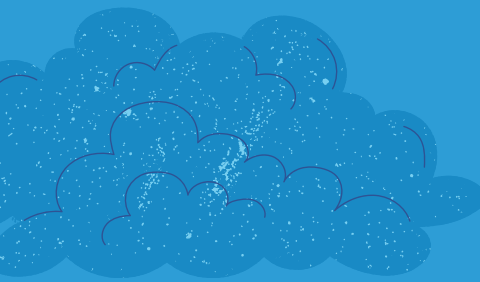

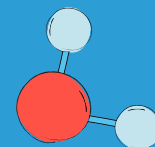

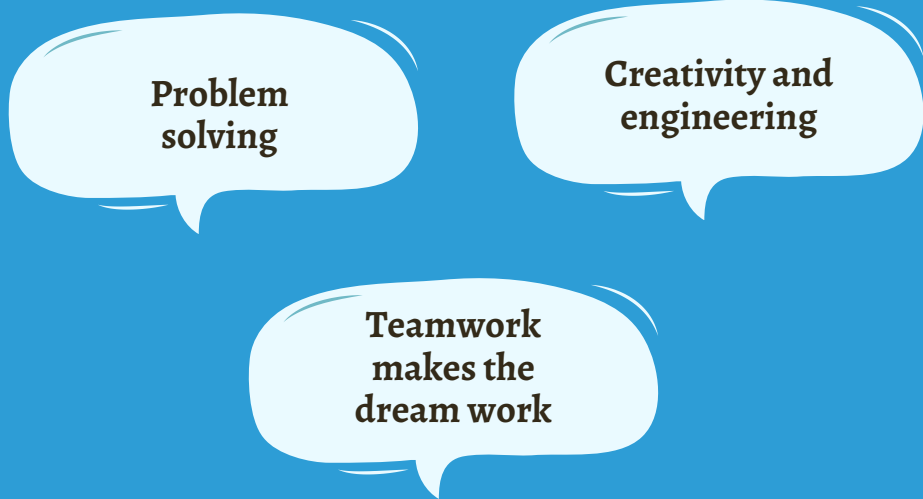

Strengths

- B** Planning, design and execution
- D** Teamwork and effort
- O** Bishan's unlimited air supply
- U** Adam's photography and videography skills
- C** The three girls were best designers
- Q** Focused to achieve our goal

Knowledge Obtained

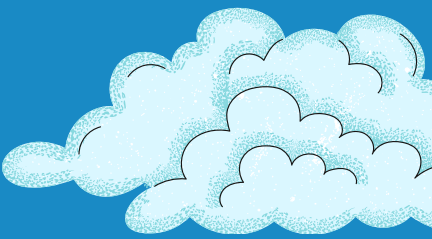

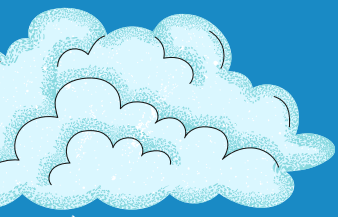

Acknowledgements

- Sans and all the other Youth Coordinators and site coordinators

Thai Interpreters

- Kelly
- Our amazing peers
